

A vintage twist

Luxury with a bit of rustic charm

We may be heading into the winter months, but that gives us all the more reason to look forward to spring and summer weddings - and this inspiration shoot is a corker. Featuring peach, jade and mint shades with gold accents scattered throughout, the soft sorbet tones help to create an effortless outdoor feel. Keep your colours consistent by opting for pastel-hued cakes, macarons and biscuits - the delicate and romantic cakes will really add to the ambience. On trend watercolour stationery with elegant gold glitter provides that hint of glamour - coordinate this theme through to the table plan. Lastly, the stand-out florals create a fresh and contemporary feel to the day. Florist Claire May Sankey from Lily & May says: "Inspiration for the shoot began with a colour palette of apricot and mint, the perfect combination for a feminine and romantic feel. To create the bouquet, I used splashes of salmon chrysanthemums, along with salmon stocks, apricot chrysanthemum blooms and the gorgeously scented white 'O'Hara' rose. The mint accents of ranunculus, jasmine, ammi and variegated ivy were added to balance the apricot tones, interspersed with pops of 'Secret Garden' roses, white delphiniums and white anemones." Modern, pretty and with statement blooms... what more could a bride want?

Add the occasional large bloom to floral arrangements for extra impact
